

Amir Mohideen Basheer Khan

Portfolio - amirmohideen.github.io | amirmohideenbk@gmail.com | +1 562-526-4146 | linkedin.com/in/amirmbk | github.com/amirmohideen

EDUCATION

California State Polytechnic University, Pomona
Master of Science in Computer Science | GPA: 4.0

Jan 2023 – May 2025
Los Angeles County, California, USA

American University of Sharjah
Bachelor of Science in Computer Engineering

Aug 2017 - Jan 2022
Sharjah, UAE

Purdue University Fort Wayne
Bachelor of Science in Computer Engineering

Jan 2020 - May 2020
Indiana, USA

WORK EXPERIENCE

Knoxlabs, Los Angeles, USA – XR Solutions Architect (dashboard.knoxlabs.com)

June 2025 – Present

- Consulted clients on XR enterprise solutions and oversaw provisioning of 135+ VR headsets, ensuring seamless enterprise configuration using MHMS.
- Built a VR order management dashboard using React 19, TypeScript, and Supabase to streamline VR hardware provisioning and vendor customer management.
- Implemented role-based access control, order tracking systems, and automated license key distribution workflows, serving 100+ organizations.

XR Bootcamp, San Francisco, USA - Mentor - (linkedin.com/posts/amir99_22408-players-37-countries-all-in-activity)

Mar 2025 – July 2025

- Led development of 4 XR prototypes and 2 MVPs, shipping production-ready code under weekly deadlines.
- Guided 2 cross-functional teams in Unity (C#), implementing core mechanics, data pipelines, and optimization strategies.
- Launched a VR game, Gorilla vs 100 Men, that went **viral** with **22K+ users** across **37+ countries** within **2 weeks**, built in 2 weeks with a 5-member team.

Cal Poly Pomona – Research Assistant - VR (Virtual Reality) + BCI (Brain Computer Interfaces) - (<https://youtu.be/o-m5KEgEb18>)

June 2024 – May 2025

- Built a VR eVTOL simulation integrating real-time physiological data streams (ECG, EEG, PPG) with Unity + Python.
- Designed secure pipelines for Lab Streaming Layer (LSL), mitigating vulnerabilities and ensuring robust data flow.
- Applied ML-based preprocessing to enhance data fidelity for U.S. Air Force-funded research.

Cal Poly Pomona – AR/VR Technical Instructor (<https://youtu.be/V-IOF6gxS5U>)

September 2024 – May 2025

- Facilitated 4 hands-on 2-hour XR workshops that trained 54 students in Unity, boosting their ability to build VR games and apps.
- Mentored 5 teams weekly (20 students) on XR game & app dev, providing technical guidance, fostering problem-solving, and promoting best coding practices.

Google, Los Angeles, USA - Product Tester for Google Gen AI Usability Research Study (linkedin.com/posts/amir99)

25 September 2023

- Provided technical feedback on Google's MakerSuite LLM, identifying bottlenecks in AI-driven product usability.

Rizek, Dubai, UAE - IT Intern (UI/UX Design)

June 2019 – August 2019

- Conducted usability analysis and performed a UI/UX redesign, resulting in an increase in user engagement and retention for their mobile app by 13%

PROJECT EXPERIENCE

XR Mind Mapping App - (<https://youtu.be/LWcDMhXzZ0Q>) **AWE US 2025** - (<https://youtu.be/702WmhCnNsw>)

June 2024 – Present

- Engineered a Unity C# app with JSON workflows, custom node systems, and AI-powered speech-to-text, improving collaboration efficiency.

Gorilla vs 100 Men VR Game (Meta Quest Store) - (meta.com/experiences/gorilla-vs-100-men/24276974678594511)

- Launched a VR game, Gorilla vs 100 Men, that went viral with 22K+ users across 37+ countries within 2 weeks, built in just 2 weeks with a 5-member team.

VR/AR Anniversary Experience (Meta Quest Store) - (meta.com/experiences/anniversaryquest/8862346790558393)

- Designed and delivered an interactive celebration experience combining VR and AR elements, enhancing user immersion for personal milestones.

More Projects

- Built an automotive watch brand in **Shopify** using **HTML**, **CSS**, **JavaScript** achieving a 60% profit margin through paid and organic digital marketing.
- Created a Python **automation script** leveraging YouTube Data API v3 to format, schedule, and publish 100 short videos daily (youtu.be/3qAJrQKENy8)
- Coordinated with a team of 4 on GitHub to deliver a 3D gravity-shifting Unity game, ensuring smooth collaboration and timely completion ([Watch Gameplay](#))

PUBLICATIONS

- “Towards Automating Social Distance Violations Using AIoT”. **2021 IEEE 6th International Forum on Research and Technology for Society and Industry (RTSI)**, pages: 524-528

SKILLS

- Programming & Development:** React 19, TypeScript, JavaScript (ES6+), Supabase, SQL, APIs (REST, YouTube Data API v3), JSON workflows
- Applied Machine Learning & Data:** Physiological signal processing (EEG, ECG, PPG), ML preprocessing pipelines, LLM/AI integration (speech-to-text, generative AI), real-time data streaming (Lab Streaming Layer)
- E-Commerce & Web:** Shopify storefront development, front-end design (Figma, Blender), digital marketing optimization (SEO, analytics), full-stack feature development (order management, role-based access control, shipping integration, PDF generation)
- Soft Skills:** Strong communication, cross-team collaboration, organizational skills, problem-solving, attention to detail
